

Welcome to the April 30 / P G Woodturners Guild Meeting

- Laurier opened the meeting at 7:15
- Excellent turn out of 17 which included 2 new turners.
- Bob discussed the community arts council event that will be hosted by studio 2880 for the months of May and June. This will be an excellent event for the guild to gain exposure into the community. All guild members are invited to bring a couple of their best turned pieces for the display or for sale. Your pieces will sit display for the full 2 months or less if they sell. A few members volunteered to be at the opening on the Friday night May 1st.
- Ken Turner handed out some info with regards to the up and coming show “From the Lathe 09 Recent Works” that will be hosted by 2 Rivers Gallery. Set up will be June 29th which will require pieces to be dropped off at the gallery the week of June 22nd.
- Laurier congratulated Bob on his recent article in the P G Free Press. Studio 2880 assisted with this article which featured Bob as their newest artist.
- Last months project was a off centered winged jar, and we had several members bring in their vessels with great results.
- The guild wood raffle continues to be a huge success and Laurier would like to say a big thanks to all members that have generously donated various pieces of wood.
- Ron C spoke briefly about different lathe manufactures as one of the new guests had questions on this.
- Ron C did the demo on a 6 inch pepper mill and this will also be the project for the month of April. Ron C has hardware for the pepper mills if members want to buy them from him.
- Our next meeting will be at Ron C house.
- Well that’s about it for this month, and as always if you need something put on the website or for sale please let me know.
