

Welcome to the February PG Woodturners Guild meeting.

Laurier Duperron hosted this months meeting and it was a full house to boot.

This month Ron C done a demonstration using a homemade Lyle Jamieson deep hollowing system with the laser measuring system attached.

Discussions were made around the up coming April weekend workshop with guest turners Brian McEvoy and Art Liestman. The weekend is approaching quite fast so we need to get moving on posters, so Laurier and Lin will be putting together the format for the poster and contacting Max's daughter to build the posters for us. Also is was disgust what should be on the posters as far as content goes and most of the members felt it should all be to do with Brian and Art.

We also disgust the setting up of a bank account for the guild for the purpose of this weekend event, so Ron C and Laurier will be looking after that.

Library is always on display and it was brought up that we should charge a small fee for the books and videos. Members felt that this is a small token as far as the value of the books and DVD's, VHS. We are thinking of \$0.50c for a book and \$1.00 for a video.

Thanks to the new people showing up. John, and John from Vanderhoof, and Colleen from P.G. Great turn out this month gang keep it up

ATTENTION - Wood Carvers (and turners) Brian & Art invite you to their workshop where they will be incorporating the unique art of woodcarving applied to their turnings.

The cost for the weekend is \$150.00 per person and we would appreciate early registration as space is limited. Please e-mail or phone the person in the "CONTACT" tab on the home page.

Next months project will be a Hollow Form.

Well that's about it for this month. Please remember if you need anything added or have something for sale, please let me know.

Regards Lin.
