

Welcome to the November PG Woodturners Guild meeting.

This month we made A Christmas Ornament so all that attended showed off their pieces. Ron C did a demo Last month on how to make a hollow form Christmas ornament The wood for the globe was walnut burl and the finials were from a piece of white wood. Ron C did a demo this month for a Pepper Mill and I think I will be making one for the next meeting for the open class.

This month we had the meeting at Lin's house and Lorraine supplied coffee and snacks. Thanks.

The library is really starting to build, so all of the guild's tapes, DVD's and magazines were on display. Anyone can sign these out for use at anytime.

Some of the members have just finished up the craft fair season and said they did quite well.

We have a few new people show up for this months meeting and it was nice to see some new faces, so thank you Leo, Norm and Colin for coming and we hope to see you again.

Next months project will be an open class.

Well that's about it for this month and please remember if you need anything added or have something for sale, please let me know.

Regards Lin.
