

Welcome to the October PG Woodturners Guild meeting.

This month we made anything we wanted (open class) so all that attended showed off their pieces. Ron did a demo on how to make a hollow form Christmas ornament. The wood for the globe was walnut burl and the finials were from a piece of white wood.

This month we had the meeting at Laurie's house and Maria supplied coffee and snacks. Thanks.

Laurie is now the librarian so all of the guilds tapes , DVD's and magazines were on display.

All members discussed who was going into the UNBC studio fair as the guild purchased a table for the members. People going were Ron C, Laurie, Ken, Lyle and Ron M. We also discussed where we would meet and times we had to be there to setup. Max had his own table as he usually does.

Next months project will be the hollow Christmas ornament.

Well that's about it for this month and please remember if you need anything added or have something for sale, please let me know.

Regards Lin.
