

Welcome to the September PG Woodturners Guild meeting.

This month we were to make Small Hollow Vessel so all that attended showed off their pieces. Ron did a demo on shear scraping on a natural edge bowl made from Madrone. I think the wood was supplied by Bob as the meeting was at Bob's house. Thanks Bob.

The BBQ was a great success at Laurie's house and the weather was perfect. A big thank you to Laurie and Maria for putting this event on at their house for the Guild members and spouses, also a big thanks to all that showed up.

Laurie told all members that he would be looking after the library and video/DVD collection from now on, so please if you have any books, magazines or DVD's that you would like to share or put into the library see Laurie.

At the next meeting we should have the Al Stirt plate from the West Coast Roundup which was kindly donated to the P G Woodturners so we could show some off the techniques that were demonstrated to us, so that the other guild members could see how to do some of the techniques.

Next months project will be open to whatever you want to make, the members decided that.

Well that's about it for this month and please remember if you need anything added or have something for sale, please let me know.

Regards Lin.
